onsemi Reports Record Revenue and Non-GAAP Earnings Per Share for Third Quarter 2021

November 1, 2021

PHOENIX--(BUSINESS WIRE)-- ON Semiconductor Corporation ("onsemi") (Nasdaq: ON) today announced results for the third quarter of 2021 with the following highlights:

- Record revenue of \$1,742.1 million, an increase of 32 percent year-over-year
- GAAP diluted earnings per share of \$0.70 as compared to \$0.38 in the quarter a year ago
- Record non-GAAP diluted earnings per share of \$0.87 as compared to \$0.27 in the quarter a year ago
- GAAP gross margin of 41.4 percent increased 310 basis points quarter-over-quarter and 790 basis points year-over-year
- Non-GAAP gross margin of 41.5 percent increased 310 basis points quarter-over-quarter and 800 basis points year-over-year
- Record GAAP operating margin of 22.9 percent increased 600 basis points quarter-over-quarter and 1,390 basis point year-over-year
- Record non-GAAP operating margin of 24.5 percent increased 490 basis points quarter-over-quarter and 1,250 basis points year-over-year
- Free cash flow of \$355.7 million or 20.4 percent of revenue

"We delivered another quarter of record results driven by on-going execution of our new strategy with demand remaining strong for our intelligent power and sensing solutions in the automotive and industrial end-markets. We continue to execute our margin expansions plans which drove 310 basis points of non-GAAP gross margin improvement quarter-over-quarter. With a rapidly expanding design-win funnel for disruptive applications such as electric vehicles, ADAS, industrial automation, and alternative energy, coupled with ongoing transformational changes, we are making sustainable progress towards our target financial model," said Hassane El-Khoury, president and CEO of onsemi.

Selected financial results for the quarter are shown below with comparable periods:

FOURTH QUARTER 2021 OUTLOOK

The following table outlines onsemi's projected fourth quarter of 2021 GAAP and non-GAAP outlook.

	Total onsemi GAAP	Special Items ***	Total onsemi Non-GAAP****
Revenue	\$1,740 to \$1,840 million		\$1,740 to \$1,840 million
Gross Margin	41.8% to 43.8%	0.2%	42.0% to 44.0%
Operating Expenses	\$338 to \$356 million	\$40 to \$43 million	\$298 to \$313 million
Other Income and Expense (including interest expense), net	\$31 to \$34 million	\$7 million*	\$24 to \$27 million
Diluted Earnings Per Share	\$0.67 to \$0.78	\$0.22 to \$ 0.23	\$0.89 to \$1.01
Diluted Shares Outstanding **	442 million	5 million	437 million

- * Convertible Notes, Non-cash interest expense is calculated pursuant to FASB's Accounting Standards Codification Topic 470: Debt.
- ** Diluted shares outstanding can vary as a result of, among other things, the actual exercise of options or vesting of restricted stock units, the incremental dilutive shares from the Company's convertible senior subordinated notes, and the repurchase or the issuance of stock or convertible notes or the sale of treasury shares. In periods when the quarterly average stock price per share exceeds \$20.72 for the 1.625% Notes and \$52.97 for the 0% Notes, the non-GAAP diluted share count and non-GAAP net income per share include the anti-dilutive impact of the Company's hedge transactions issued concurrently with the 1.625% Notes and the 0% Notes, respectively. At an average stock price per share between \$20.72 and \$30.70 for the 1.625% Notes and \$52.97 and \$74.34 for the 0% Notes, the hedging activity offsets the potentially dilutive effect of the 1.625% Notes and 0% Notes, respectively. In periods when the quarterly average stock price exceeds \$30.70 for the 1.625% Notes, and \$74.34 for the 0% Notes, the diluted shares outstanding. Both GAAP and non-GAAP diluted share counts are based on the Company's stock price as of October 1, 2021.
- **** Special items may include: amortization of acquisition-related intangibles; expensing of appraised inventory fair market value step-up; non-recurring facility costs, purchased in-process research and development expenses; restructuring, asset impairments and other, net; goodwill impairment charges; gains and losses on debt prepayment; non-cash interest expense; actuarial (gains) losses on pension plans and other pension benefits; and certain other special items, as necessary. These special items are out of our control and could change significantly from period to period. As a result, we are not able to reasonably estimate and separately present the individual impact or probable significance of these special items, and we are similarly unable to provide a reconciliation of the non-GAAP measures. The reconciliation that is unavailable would include a forward-looking income statement, balance sheet and statement of cash flows in accordance with GAAP. For this reason, we use a projected range of the aggregate amount of special items in order to calculate our projected non-GAAP operating expense outlook.
- **** We believe these non-GAAP measures provide important supplemental information to investors. We use these measures, together with GAAP measures, for internal managerial purposes and as a means to evaluate period-to-period comparisons. However, we do not, and you should not, rely on non-GAAP financial measures alone as measures of our performance. We believe that non-GAAP financial measures reflect an additional way of viewing aspects of our operations that, when taken together with GAAP results and the reconciliations to corresponding GAAP financial measures that we also provide in our releases, provide a more complete understanding of factors and trends affecting our business. Because non-GAAP financial measures are not standardized, it may not be possible to compare these financial measures with other companies' non-GAAP financial measures, even if they have similar names.

TELECONFERENCE

onsemi will host a conference call for the financial community at 9 a.m. Eastern Daylight Time (EDT) on November 1, 2021 to discuss this announcement and onsemi's 2021 third quarter results. The Company will also provide a real-time audio webcast of the teleconference on the Investor Relations page of its website at http://www.onsemi.com. The webcast replay will be available at this site approximately one hour following the live broadcast and will continue to be available for approximately 30 days following the conference call. Investors and interested parties can also access the conference call via telephone by dialing (888) 414-4458 (U.S./Canada) or: (646) 960-0166 (International). In order to join this conference call, you will be required to provide the Conference ID Number – which is 8631312.

About onsemi

onsemi (Nasdaq: ON) is driving disruptive innovations to help build a better future. With a focus on automotive and industrial end-markets, the company is accelerating change in megatrends such as vehicle electrification and safety, sustainable energy grids, industrial automation, and 5G and cloud infrastructure. With a highly differentiated and innovative product portfolio, onsemi creates intelligent power and sensing technologies that solve the world's most complex challenges and leads the way in creating a safer, cleaner, and smarter world.

(1) Tax impact of non-GAAP special items (a-i) is calculated using the federal statutory rate of 21% for all periods presented.

(2) The Company simplified its corporate structure by repatriating the economic rights of its non-U.S. intellectual property to the United States via domestication of certain foreign subsidiaries (the "Domestication"). The Domestication resulted in a benefit from recognizing certain deferred tax assets, net of deferred tax liabilities, of \$60.4 million. Additionally, the Domestication caused the Company to reassess the full valuation allowance recorded against its U.S. state deferred tax assets. As a result, the Company released approximately \$49.9 million of its valuation allowance recorded against its U.S. state deferred tax assets.

(3) The income tax adjustment primarily represents the use of the net operating loss, non-cash impact of not asserting indefinite reinvestment on earnings of our foreign subsidiaries, deferred tax expense not affecting taxes payable, and non-cash expense (benefit) related to uncertain tax positions.

Certain of the amounts in the above tables may not total due to rounding of individual amounts.

Total share-based compensation related to restricted stock units, stock grant awards and the employee stock purchase plan is included below:

NON-GAAP MEASURES

To supplement the consolidated financial results prepared in accordance with GAAP, onsemi uses certain non-GAAP measures, which are adjusted from the most directly comparable GAAP measures to exclude items related to the amortization of intangible assets, amortization of acquisition-related intangibles, expensing of appraised inventory fair market value step-up, inventory valuation adjustments, purchased in-process research and development expenses, restructuring, asset impairments and other, net, goodwill impairment charges, gains and losses on debt prepayment, non-cash interest expense, actuarial (gains) losses on pension plans and other pension benefits, third party acquisition and divestiture related costs, tax impact of these items and certain other non-recurring items, as necessary. Management does not consider the effects of these items in evaluating the core operational activities of onsemi. Management uses these non-GAAP measures internally to make strategic decisions, forecast future results and evaluate onsemi's current performance. In addition, the Company believes that most analysts covering onsemi use the non-GAAP measures are important to investors in understanding onsemi's current and future operating results as seen through the eyes of management. In addition, management believes these non-GAAP measures are useful to investors in enabling them to better assess changes in onsemi's core business across different time periods. These non-GAAP measures are not prepared in accordance with, and should not be considered alternatives or necessarily superior to, GAAP financial data and may be different from non-GAAP measures used by other companies. Because non-GAAP financial measures are not standardized, it may not be possible to compare these financial measures with other companies' non-GAAP financial measures, even if they have similar names.

Non-GAAP Revenue

The use of non-GAAP revenue allows management to evaluate, among other things, the revenue from the Company's core businesses and trends across different reporting periods on a consistent basis, independent of special items. In addition, non- GAAP revenue is an important component of management's internal performance measurement and incentive and reward process as it is used to assess the current and historical financial results of the business and for strategic decision making, preparing budgets, obtaining targets and forecasting future results. Management presents this non-GAAP financial measure to enable investors and analysts to evaluate the Company's revenue generation performance relative to the direct costs of operations of onsemi's core businesses.

Non-GAAP Gross Profit and Gross Margin

The use of non-GAAP gross profit and gross margin allows management to evaluate, among other things, the gross margin and gross profit of the Company's core businesses and trends across different reporting periods on a consistent basis, independent of non-cash items including, generally speaking, expensing of appraised inventory fair market value step-up and non-recurring facility costs. In addition, it is an important component of management's internal performance measurement and incentive and reward process as it is used to assess the current and historical financial results of the business and for strategic decision making, preparing budgets, obtaining targets and forecasting future results. Management presents this non-GAAP financial measure to enable investors and analysts to evaluate our revenue generation performance relative to the direct costs of revenue of onsemi's core businesses.

Non-GAAP Operating Income and Operating Margin

The use of non-GAAP operating income and operating margin allows management to evaluate, among other things, the operating margin and operating income of the Company's core businesses and trends across different reporting periods on a consistent basis, independent of non-cash items including, generally speaking, expensing of appraised inventory fair market value step-up, non-recurring facility costs, amortization and impairments of intangible assets, third party acquisition and divestiture related costs, restructuring charges and certain other special items as necessary. In addition, it is an important component of management's internal performance measurement and incentive and reward process as it is used to assess the current and historical financial results of the business and for strategic decision making, preparing budgets, obtaining targets and forecasting future results. Management presents this non-GAAP financial measure to enable investors and analysts to evaluate the Company's revenue generation performance relative to the direct costs of operations of onsemi's core businesses.

Non-GAAP Net Income Attributable to ON Semiconductor and Non-GAAP Diluted Earnings Per Share

The use of non-GAAP net income attributable to onsemi and non-GAAP diluted earnings per share allows management to evaluate the operating results of onsemi's core businesses and trends across different reporting periods on a consistent basis, independent of non-cash items including, generally, the amortization and impairments of intangible assets, expensing of appraised inventory fair market value step-up, non-recurring facility costs, restructuring, gains and losses on debt prepayment, non-cash interest expense, actuarial (gains) losses on pension plans and other pension benefits, third party acquisition and divestiture related costs, tax indemnification by third parties, tax impact of these items and other non-GAAP adjustments and certain other special items, as necessary. In addition, these items are important components of management's internal performance measurement and incentive and reward process, as they are used to assess the current and historical financial results of the business and for

strategic decision making, preparing budgets, setting targets and forecasting future results. Management presents these non-GAAP financial measures to enable investors and analysts to understand the results of operations of onsemi's core businesses and, to the extent comparable, to compare our results of operations on a more consistent basis against those of other companies in our industry.

Free Cash Flow

The use of free cash flow allows management to evaluate, among other things, the ability of the Company to make interest or principal payments on its debt. Free cash flow is defined as the difference between cash flow from operating activities and capital expenditures disclosed under investing activities in the consolidated statement of cash flows. Free cash flow is not an alternate to cash flow from operating activities as a measure of liquidity. It is an important component of management's internal performance measurement and incentive and reward process as it is used to assess the current and historical financial results of the business and for strategic decision making, preparing budgets, obtaining targets and forecasting future results. Management presents this non-GAAP financial measure to enable investors and analysts to evaluate our revenue generation performance relative to the direct costs of operations of onsemi's core businesses.

Non-GAAP Diluted Share Count

The use of non-GAAP diluted share count allows management to evaluate, among other things, the potential dilution due to the outstanding stock options and restricted stock units excluding the dilution from the convertible notes that is covered by hedging activity up to a certain threshold. In periods when the quarterly average stock price per share exceeds \$20.72, the non-GAAP diluted share count includes the anti-dilutive impact of the Company's hedge transactions issued concurrently with the 1.625% convertible notes. As such, at an average stock price per share between \$20.72 and \$30.70, the hedging activity offsets the potentially dilutive effect of the 1.625% convertible notes. In periods when the quarterly average stock price per share exceeds \$52.97, the non-GAAP diluted share count includes the anti-dilutive impact of the Company's hedge transactions issued concurrently with the 0% convertible notes. As such, at an average stock price per share between \$52.97 and \$74.34, the hedging activity offsets the potentially dilutive effect of the 0% convertible notes.
